Trade name: Touch N Seal Quick Cure Polyurethane Foam Sealant RX (Reduced Expansion) (Contd. of page 1) Classification according to Directive 67/548/EEC or Directive 1999/45/EC X Xn: Harmful R20-40: Harmful by inhalation. Limited evidence of a carcinogenic effect. 🗙 Xn; Sensitising R42/43: May cause sensitisation by inhalation and skin contact. 🗙 Xi; Irritant R36/37/38: Irritating to eyes, respiratory system and skin. R52/53: Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment. · Information concerning particular hazards for human and environment: The product has to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version. · Classification system: The classification is according to the latest editions of the EU-lists, and extended by company and literature data. The classification is in accordance with the latest editions of international substances lists, and is supplemented by information from technical literature and by information provided by the company. · 2.2 Label elements Labelling according to Regulation (EC) No 1272/2008 The following Hazard Statements are applicable only to the EU regulations and not the US GHS regulation: H229, H412. The product is classified and labelled according to the CLP regulation. Hazard pictograms GHS04 GHS07 GHS08 · Signal word Danger · Hazard-determining components of labelling: diphenylmethanediisocyanate, isomeres and homologues tris[2-chloro-1-(chloromethyl)ethyl] phosphate 4,4'-methylenediphenyl diisocyanate trans-dichloroethylene Hazard statements The following Hazard Statements are applicable only to the EU regulations and not the US GHS regulation: H412. May displace oxygen and cause rapid suffocation. (USA GHS Only) H280 Contains gas under pressure; may explode if heated. H332 Harmful if inhaled. H315 Causes skin irritation. H319 Causes serious eye irritation. H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled. (Contd. on page 3)

4 First aid measures

· 4.1 Description of first aid measures

 General information: Immediately remove any clothing soiled by the product. Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident. Take affected persons out into the fresh air.
 After inhalation: Supply fresh air; consult doctor in case of complaints.

Provide oxygen treatment if affected person has difficulty breathing.

(Contd. on page 5)

GHS

Printing date 02.02.2017

Revision: 02.02.2017

Trade name: Touch N Seal Quick Cure Polyurethane Foam Sealant RX (Reduced Expansion) (Contd. of page 4) In case of unconsciousness place patient stably in side position for transportation. · After skin contact: Immediately wash with water and soap and rinse thoroughly. Do not pull solidified product off the skin. If skin irritation continues, consult a doctor. · After eye contact: Immediately remove contact lenses if possible. Rinse opened eye for several minutes under running water. Then consult a doctor. · After swallowing: Rinse out mouth and then drink plenty of water. Do not induce vomiting; call for medical help immediately. · 4.2 Most important symptoms and effects, both acute and delayed Asthma attacks Headache **Breathing difficulty** Allergic reactions Coughing Nausea Gastric or intestinal disorders when ingested. Irritant to skin and mucous membranes. Irritant to eyes. Dizziness Disorientation · Hazards Danger of impaired breathing. Danger of disturbed cardiac rhvthm. Danger of pneumonia. Danger of pulmonary oedema. Danger of convulsion. • 4.3 Indication of any immediate medical attention and special treatment needed Severe allergic skin reaction, bronchial spasms and anaphylactic shock are possible. Treat skin and mucous membrane with antihistamine and corticoid preparations. In cases of irritation to the lungs, initial treatment with cortical steroid inhalants. Monitor circulation. If necessary oxygen respiration treatment. Medical supervision for at least 48 hours. Contains isocyanates. May produce an allergic reaction.

5 Firefighting measures

- 5.1 Extinguishing media
- Suitable extinguishing agents:
- CO2, powder or water spray. Fight larger fires with water spray or alcohol resistant foam. Water in flooding quantities.
- · For safety reasons unsuitable extinguishing agents: None.
- **5.2 Special hazards arising from the substance or mixture** Danger of receptacles bursting because of high vapour pressure when heated. During heating or in case of fire poisonous gases are produced.

(Contd. on page 6)

Revision: 02.02.2017

Trade name: Touch N Seal Quick Cure Polyurethane Foam Sealant RX (Reduced Expansion)

(Contd. of page 5)

· 5.3 Advice for firefighters

· Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

· Additional information Cool endangered receptacles with water spray.

6 Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures
 Use respiratory protective device against the effects of fumes/dust/aerosol.
 Wear protective equipment. Keep unprotected persons away.
 Ensure adequate ventilation
 Protect from heat.
 Isolate area and prevent access.
 Keep people at a distance and stay on the windward side.
 6.2 Environmental precautions: Do not allow to enter sewers/ surface or ground water.
 6.3 Methods and material for containment and cleaning up:
- Allow to solidify. Pick up mechanically. Send for recovery or disposal in suitable receptacles. Dispose contaminated material as waste according to item 13. • **6.4 Reference to other sections** See Section 7 for information on safe handling.
- See Section 7 for information on personal protection equipment.
- See Section 13 for disposal information.

7 Handling and storage

· 7.1 Precautions for safe handling Keep away from heat and direct sunlight. Use only in well ventilated areas. Information about fire - and explosion protection: Keep respiratory protective device available. Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50 °C, i.e. electric lights. Do not pierce or burn, even after use. Do not spray onto a naked flame or any incandescent material. · 7.2 Conditions for safe storage, including any incompatibilities · Storage: · Requirements to be met by storerooms and receptacles: Store in a cool location. Observe official regulations on storing packagings with pressurized containers. Provide ventilation for receptacles. Avoid storage near extreme heat, ignition sources or open flame. · Information about storage in one common storage facility: Store away from foodstuffs. Store away from oxidizing agents.

(Contd. on page 7)

 \cdot DNELs No further relevant information available.

 \cdot **PNECs** No further relevant information available.

• Additional information: The lists valid during the making were used as basis.

· 8.2 Exposure controls

· Personal protective equipment:

· General protective and hygienic measures:

The usual precautionary measures are to be adhered to when handling chemicals.

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing.

Wash hands before breaks and at the end of work.

Do not inhale gases / fumes / aerosols.

Avoid contact with the eyes and skin.

Clean skin thoroughly immediately after handling the product.

· Respiratory protection:

Combined Organic Vapor and Particulate Respirator is recommended for use during all processing activities.

· Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

· Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

· Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

· Eye protection:

Safety glasses

- · Body protection: Protective work clothing
- · Limitation and supervision of exposure into the environment No further relevant information available.
- · Risk management measures See Section 7 for additional information. No further relevant information available.

9 Physical and chemical properties

- 9.1 Information on basic physical and chemical properties
- · General Information · Appearance:

· Appearance.		
Form:	Aerosolized liquid with compressed gas in cylinders

To Stability and reactiv

- · 10.1 Reactivity
- 10.2 Chemical stability
- Thermal decomposition / conditions to be avoided:
- No decomposition if used and stored according to specifications.
- **10.3 Possibility of hazardous reactions** Develops readily flammable gases/fumes.
- Reacts with oxidizing agents.
- Can form explosive mixtures in air if heated above flash point and/or when sprayed or atomised.
- Contact with acids releases toxic gases.
- Danger of receptacles bursting because of high vapour pressure when heated.

· 10.4 Conditions to avoid

Keep ignition sources away - Do not smoke.

Store away from oxidizing agents.

• **10.5 Incompatible materials:** No further relevant information available.

 10.6 Hazardous decomposition products: Carbon monoxide and carbon dioxide Nitrogen oxides (NOx) Hydrogen cyanide (prussic acid) Phosphorus oxides (e.g. P2O5)

Chlorine

11 Toxicological information		
· 11.1 Information on toxicological effects		
· Acute toxicity:		
· LD/LC50 values relevant for classification:		
101-68-8 4,4'-methylenediphenyl diisocyanate		
Oral LD50 2200 mg/kg (mouse)		
13674-87-8 tris[2-chloro-1-(chloromethyl)ethyl] phosphate		
Oral LD50 >2000 mg/kg (rat)		
Dermal LD50 >2000 mg/kg (rabbit)		
· Primary irritant effect:		
on the skin: Irritant to skin and mucous membranes.		
• on the eye: Irritating effect.		
· Sensitization:		
Sensitization possible through inhalation.		
Sensitization possible through skin contact.		
Subacute to chronic toxicity: Induction of concentrated veneuro on well on and intake will load to encepthonic like conditions and		
Inhalation of concentrated vapours as well as oral intake will lead to anaesthesia-like conditions and headache, dizziness, etc.		
· Additional toxicological information:		
The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version:		
Harmful Irritant		
Danger through skin adsorption.		
Toxic and/or corrosive effects may be delayed up to 24 hours.		
Suspected of causing cancer.		
In addition to local irritant manifestations, there is a narcotic effect when inhaling high concentrations, with		
the danger of central respiratory arrest.		
Asphyxiant gas.		
 Acute effects (acute toxicity, irritation and corrosivity): Vapours have narcotic effect. Repeated dose toxicity: 		
May cause damage to organs through prolonged or repeated exposure.		
Repeated exposures may result in skin and/or respiratory sensitivity.		
(Contd. on page 11)

Carc. 2

12 Ecological information · 12.1 Toxicity · Aquatic toxicity: The product contains materials that are harmful to the environment. 13674-87-8 tris[2-chloro-1-(chloromethyl)ethyl] phosphate LC50 1,1 mg/l (Oncorhynchus mykiss) 96 h • **12.2 Persistence and degradability** No further relevant information available. · 12.3 Bioaccumulative potential No further relevant information available. · 12.4 Mobility in soil No further relevant information available. · Ecotoxical effects: · Remark: Harmful to fish

- · Additional ecological information:
- · General notes:

Avoid transfer into the environment.

Water hazard class 2 (German Regulation) (Self-assessment): hazardous for water

Do not allow product to reach ground water, water course or sewage system.

Danger to drinking water if even small guantities leak into the ground.

Harmful to aquatic organisms

Due to available data on eliminability/decomposition and bioaccumulation potential prolonged term damage of the environment can not be excluded.

· 12.5 Results of PBT and vPvB assessment

- · PBT: Not applicable.
- · vPvB: Not applicable.
- · 12.6 Other adverse effects No further relevant information available.

13 Disposal considerations

13.1 Waste treatment methods

· Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system. Can be disposed of with household garbage after solidification following consultation with the waste disposal facility operator and the pertinent authorities and adhering to the necessary technical regulations.

- · Uncleaned packaging:
- · Recommendation: Disposal must be made according to official regulations.

Canadian Ingredient Disclosure list (limit 0.1%) 101-68-8 4,4'-methylenediphenyl diisocyanate	

Printing date 02.02.2017

Revision: 02.02.2017

Trade name: Touch N Seal Quick Cure Polyurethane Foam Sealant RX (Reduced Expansion)

(Contd. of page 13)

· Canadian Ingredient Disclosure list (limit 1%)

None of the ingredients is listed.

· Other regulations, limitations and prohibitive regulations

· Substances of very high concern (SVHC) according to REACH, Article 57

None of the ingredients is listed.

· 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

16 Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

· Relevant phrases

- H225 Highly flammable liquid and vapour.
- H280 Contains gas under pressure; may explode if heated.
- H315 Causes skin irritation.
- H317 May cause an allergic skin reaction.
- H319 Causes serious eye irritation.
- H332 Harmful if inhaled.
- H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled.
- H335 May cause respiratory irritation.
- H351 Suspected of causing cancer.
- H373 May cause damage to organs through prolonged or repeated exposure.
- H411 Toxic to aquatic life with long lasting effects.
- H412 Harmful to aquatic life with long lasting effects.
- R11 Highly flammable.
- R20 Harmful by inhalation.

R36/37/38 Irritating to eyes, respiratory system and skin.

- R40 Limited evidence of a carcinogenic effect.
- R42/43 May cause sensitisation by inhalation and skin contact.
- R51/53 Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
- R52/53 Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
